Percentage of Income Payment Program (PIPP)

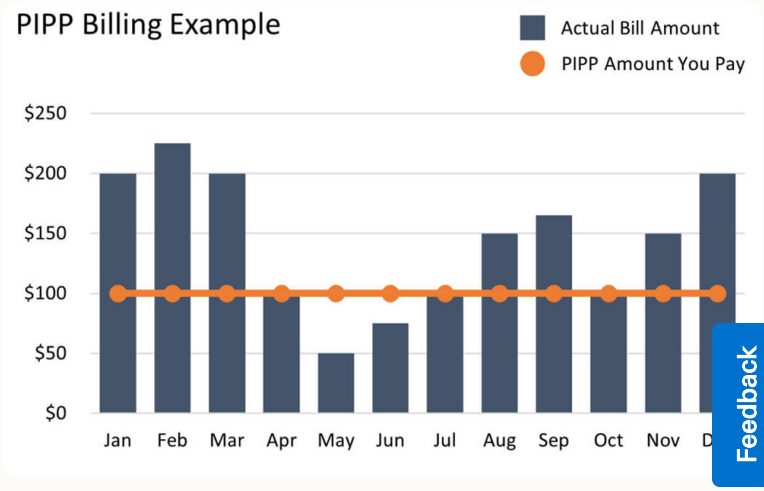

PIPP is a billing program helping income challenged Dominion Energy customers manage their electric bills year-round.

Your monthly bill amount, or "PIPP Amount," is based on a percentage of your household income and primary heat source.

Electric Heat = 10% of income
Other Heat Source = 6% of income

PIPP Billing Example

For example, if your monthly income is $1,000 and your primary heat source is electric, your monthly PIPP payment would be capped at $100 (10% of your income).

PIPP billing example shows the actual billing amount and the PIPP amount you pay.

Benefits of Paying Your Monthly PIPP Amount On-Time and In-Full

PIPP participants pay a set PIPP amount each month instead of the actual bill amount. This set amount helps you manage seasonal ups and downs of your energy bill more easily.

In addition, PIPP customers do not pay a security deposit and are not assessed late fees.
